Superior Liners

GROWING BETTER ROOTS SINCE 1918

This list offers you the BEST VALUE in quality plants—with the best root system—for better results.

Long ago, we gave up grafting. Our plants are on their OWN—not on borrowed ROOTS.

Our proprietary "Chemurgic" processes and Mechanical Innovations produce BETTER ROOTS and STURDY TOPS.

We are strictly wholesale growers.

"A NURSERYMAN'S NURSERY."

SECT. I. contains our offering of Liners for bedding out, also potted liners for row planting. Seek our advice on Lining out Rhododendrons. We offer 40 years of experience in this field. We annually produce 100,000 cutting grown Rhododendron Named Hybrids in over 200 Varieties, also our own crosses of Choicest Rhododendron Seedlings.

SECT. II. offers field grown plants for retail sales, also bedded plants for setting in rows and counter-trade.

Due to popular demand for larger stock—we have lined out 75,000 Rhododendron Named Hybrids—in addition to a large assortment of other choice plants—over the last 4 years—many of which are offered herein.

Light—but safe—yet reasonable packing, enable us to ship NATION-WIDE.

Door-to-door, enclosed truck delivery can be arranged—at low rates.

A one price policy is maintained—but, large orders earn QUANTITY DISCOUNT.

This list is our only representative. Since we have no agents or salesmen, we deal "directly and correctly" with our customers.

On substantial orders: PHONE "Person to Person—for VAN" EDgewood 4-1100. Phone charge will be credited to your account.

Visit us when nearby—it's worthwhile . . . no obligation.

Order early to assure choice of varieties.

Your valued orders will have our prompt attention.

RHODODENDRON—Named Hybrids

Hardy :: Strong :: Own Root :: Transplants

Our Rhododendron Liners, being "cutting grown," are **not** on borrowed tender roots; have **no** graft or union weakness and are **not** subject to understock suckering or disease.

We carefully select our cuttings from choice, healthy, vigorous, blooming named hybrids.

On their "own roots," our transplants are True-to-Name to the "tips" of their vigorous, healthy roots.

We produce **100,000 cutting grown Rhododendrons**, yearly in over 75 listed varieties and are hybridizing and testing many outstanding novelties.

Our Rhododendrons will develop **MORE** rapidly into strong, well branched, bushy, heavily budded stock—a welcome asset for the discriminating nurseryman.

This is a **PROFIT ITEM**—proven by more increased, repeat orders—each year—from steady, satisfied customers.

Select TODAY!! from this list of interesting, choice Named Hybrids.

Ready MAY 1st—with vigorous tops and heavy, superbly rooted peat ball. . . . **THE FOLLOWING:**

RHODODENDRONS

50c Each at 100 Rate; 45c Each at 1000

Rate for 260 or more of one variety. Each variety sold in multiples of 20 only and 20 at 100 rate.

CATAWBIENSE GRANDIFLORUM. One of the best for foliage. Flowers are rosy-purple. Prolific bloomer.

ROSEUM ELEGANS. The BEST all round landscape plant. Forms a dense plant covered with good sized trusses of mauve pink.

RHODODENDRONS

75c Each at 100 Rate.

Each variety sold in multiples of 20 only and 20 at 100 rate. 1000 rates does not apply.

ALBUM ELEGANS. A vigorous upright type with good foliage and lovely white flowers.

ALBUM GRANDIFLORUM. Large plant. Good foliage. Opens blush, turns white.

ALBUM NOVUM. Opens pale lavender then turns white. Lovely foliage.

CARACTACUS. An old standby with flowers of crimson. Habit of plant is excellent.

CATHERINE VAN TOL. A rugged, lovely pink flowering hybrid.

CHAS. BAGLEY. Lovely large trusses of rose-red; spreading habit.

CHAS. THOROLD. Purple, greenish-yellow eye; lovely foliage.

CUNNINGHAM WHITE. Dense, compact plant. Early white.

CYNTHIA. Immense red trusses; rapid grower.

FASTUOSUM fl. pl. Pale lavender-purple flower; inclination to double up.

F. D. GODMAN. Deep red effect caused by dark pattern on upper lobe of flower.

GIGANTEUM. A rose-red variety of vigorous habit.

IGNATIUS SARGENT. Most handsome. Individual flowers, very large; light red with paler throat.

FIELD GROWN RHODODENDRON NAMED HYBS. — See SECTION II.

75c Each RHODODENDRONS — Continued

KATE WATERER. Beautiful red with a prominent golden throat.

MIDSUMMER. Very late blooming variety; deep pink with ochre throat.

MINNIE. Blush white; orange pattern.

OLD PORT. Plum-colored; very hardy.

PARSONS GLORIOSUM. Profuse Bloomer—lavender-pink; healthy, vigorous plant.

PRINCE. CAM. de ROHAN. Large blush flowers with carmine spots and dark throat.

PURPUREUM CRISPUM. Purple flowers with wavy lobes.

PURPUREUM ELEGANS. Good hardy purple; excels for foliage and plant habit.

PURPUREUM GRANDIFLORUM. Reliable purple with large dark green leaves.

ROSEUM PINK. A select form of Roseum Elegans, having the same good plant habit with large trusses of **clear pink** flowers.

ROSEUM SUPERBUM. Clear, soft pink; late bloomer.

SAPPHO. White with maroon blatch.

VAN der BROCK. Aniline red; vigorous grower.

RHODODENDRONS

90c Each at 100 Rate.

Each variety sold in multiples of 20 only and 20 at 100 rate. 1000 rate does not apply.

AMERICA. Considered the best hardy red today; spreading habit.

ATROSANGUINEA. Ironclad Red; good foliage and plant habit.

BLACK BEAUTY. Very dark maroon flowers.

BLUE PETER. Lavender-blue with dark blotch.

BOULE de NEIGE. Dwarf, compact; early white.

CATAWBIENSE ALBUM. Proven the best all-around hardy white.

DR. DRESSELHUY. Upright grower, crowned with aniline red flowers in tall trusses.

DR. RUTGERS. Top-rate recent introduction. Broad, dense plant with red flowers.

DUKE OF YORK. Clear, intense pink; dark throat.

EDWARD S. RAND. Distinctive foliage; good hardy red.

EVERESTIANUM. Wonderful plant, graced with lovely frilled flowers; pure lavender.

FLUSHING. Very hardy red Catawbiense hybrid.

GOETHE. Dense, compact plant; large trusses of lavender flowers.

GOMER WATERER. One of the largest white flowering Rhodos.

H. H. HUNNEWELL. Carmine-red; very hardy.

H. W. SARGENT. Very large, deep crimson red flowers.

KETTLEDROM. Good, old, hardy red; spreading habit.

LADY ARMSTRONG. Rosy-red with white throat; very hardy.

LADY CLERMONT. Light red with deep crimson blotch.

LADY EL. CATHCART. Clear pink; spotted.

LADY GREY EGERTON. Immense trusses; delicate lavender.

LEE'S BEST PURPLE. Deep purple. Excellent plant habit.

LEE'S DARK PURPLE. Large, purple trusses backed by dark wavy foliage.

LORD ARMSTRONG. Darker than Lady Armstrong with white anthers.

LORD ROBERTS. Deep red with dark crimson pattern.

MAD deBRUIN. Brilliant red; interesting way foliage.

MAD. MASSON. Tall white trusses with a prominent golden-yellow eye.

MC INTOSH. Aniline red; vigorous grower.

MEADOWBROOK. Cheerful deep pink—fimbriated flowers.

MME. CARVALHO. Very large flowering white.

MRS. P. den OUDEN. Dense, compact; smothered with aniline red flowers.

90c EACH. RHODODENDRONS — Continued

MRS. R. S. HOLFORD. Large trusses of salmon- red.

PROF. BETTEX. Brilliant red; good foliage.

PURPLE SPLENDOR. Lovely pansy-purple with deeper throat blotch.

ROSLYN. Lovely trusses of lavender-blue with white stamens.

SCIPIO. Red with crimson blotch.

SEFTON. The darkest colored Rhododendrons; deep maroon.

THE QUEEN. White flowers with a yellow throat blotch.

VAN WEERDEN POELMANN. An aniline red variety with interesting wavy foliage.

FIELD GROWN RHODODENDRON NAMED HYBS. — See SECTION II

RHODODENDRONS Small-leaved (Dwarf) Varieties 4 - 6" TF

40c Each at 100 Rate

Each variety sold in multiples of 20 only and 20 at 100 rate. 1000 rate does not apply.

MYRTIFOLIUM. Dwarf pink, short-pointed leaves; good for low plantings.

WILSONI. Excellent, compact plant habit—ideal for rock gardens or foundation planting; flowers pink.

The following small-leaved varieties are available in selected transplanted seedlings:

*R. CAROLINA

*R. RACEMOSUM

(*)Available FALL as well as SPRING.

See following pages for a COMPLETE LIST of choice Rhododendron Seedlings — Heavy Transplants.

NOVELTIES IN SMALL LEAVED RHODODENDRONS

Strong — Transplanted — Rooted Cuttings

We consider these Rhododendron Novelties the hardiest of all the new, small-leaved or dwarf varieties produced recently. 60c EACH AT 100 RATE. Each variety sold in multiples of 20 only and 20 at 100 rate. 1000 rate does not apply.

PURPLE GEM. Outstanding dwarf with flowers on intense purple. A gem in its class. A lovely plant even when not in bloom.

RAMAPO. Very desirable for base planting. Always sure to furnish countless orchid colored flowers. Dense habit of growth.

WINDBEAM. Lovely shade of delicate pink; multiple trusses, smothering the whole plant when in bloom. Foliage and plant habit are excellent.

DEXTER HYBRIDS

Own Root (Cutting Grown) Transplants

We have tested over a hundred plants which were chosen as the best out of thousands of the so-called "Dexter Hybrids" planted along the Eastern Seaboard. The following were selected for their outstanding flowering, foliage and plant habit. \$2.00 EACH (only 5 of a variety per customer); \$2.50 EACH for less than 5 of a kind.

AMETHYST. Huge frilled lavender flowers over four inches across. Vigorous plant habit; never fails to bloom.

CHAMPAGNE. This cream colored Dexter, with apricot buds is an exception in this class—glossy, dark green foliage.

MRS. WM. R. COE. Deep, brilliant pink with crimson throat. Immense trusses with flowers over four inches across. Lovely, glossy, dark green foliage.

SCINTILLATION. Large trusses of luminous pink flowers of exceptional substance. Dark green, handsome foliage. Ideal plant habit. One of the hardiest of the Dexter class.

WESTBURY. A lively pink flowering selection with golden sparkle in throat. Very floriferous; compact plant habit.

WHEATLEY. Upstanding trusses of delicate pink flowers. Exceptional foliage and plant habit. Holds color well in open situation.

FOR EQUITABLE DISTRIBUTION, THE "DEXTER HYBRIDS" ARE LIMITED TO 25% OF TOTAL RHODODENDRON ORDER.

FIELD GROWN RHODODENDRON NAME HYBS. — See SECTION II.

***RHODODENDRON HYBRID SEEDLINGS**

We offer plants grown only from hand-pollinated seeds. After many years of experience in growing hybrid seedlings, we have found it a waste of time to grow plants which were produced from open (uncontrolled) pollinated seeds.

Heavy Seedlings — Transplants — 1 Yr. TF (S)

Order in Multiples of 50 — 50 at 100 rate; 250 one variety at 1000 rate.

***RHODODENDRON CATAWBIENSE NAMED HYBRID CROSSES**

25c Each at 100 Rate. (22c Each at 1000 Rate).

ATROSANGUINEA X AMERICA. The results of this cross show a better plant habit than either of its parents.

CHAS. DICKENS X ATROSANGUINEA. Both parents are recognized for hardiness and considered reliable red varieties.

CHAS. DICKENS X KETTLEDUM. Another good cross to produce very hardy red hybrids.

GLASS WHITE X PYGMALION. A combination of our native hardy white with a brilliant red with a dark blotch.

KETTLEDUM X AMERICA. This cross should produce very interesting red flowering plants.

KETTLEDUM X CHOCOLATE SOLDIER. For darker shades of crimson. The male plant is a very deep maroon.

***RHODODENDRON DEXTER (FORTUNAE) CROSSES**

25c Each at 100 Rate. (22c Each at 1000 Rate).

DEXTER RED X DEXTER RED (Frilled). Both parents are brilliant red varieties. Good possibilities for frilled flowers.

SCINTILLATION X AMERICA. This cross may produce more intense shades of pink.

SCINTILLATION X PARKER PINK. One of the hardiest combinations in the best outstanding Dexter varieties.

SCINTILLATION X WHEATLEY. Two of the best pink Dexters. Plant habit—trusses and flowers—excellent.

WHEATLEY X MRS. WM. R. COE. The male parent produces deep pink flowers over four inches across with a dark throat blotch.

***RHODODENDRON SPECIES**

The following plants are grown from seed collected from the best type of each true species.

20c Each at 100 Rate. (18c Each at 1000 Rate).

CAROLINA. Seed selected from an outstanding pink type, having excellent plant habit.

CROCEUM. A yellow flowering species. Plant in a sheltered location for best results.

RACEMOSUM. An excellent dwarf pink flowering species, ideal for rock-gardens and low foundation plantings.

RHODODENDRON NAMED HYBRIDS—Own Root (cutting grown) Transplants. See PRECEDING PAGES.

RHODODENDRON Named Hybrids

(OWN ROOT)

BED GROWN — NOT SHADED

(Flower Buds — 3 or more — ADD 20% to List Price.)

Many nurserymen are not equipped or inclined to bed out small liners from greenhouses. Upon popular demand we have bedded some of our excellent, **OWN ROOT** Rhododendron — True to Name — Hybrids.

THESE PLANTS were grown with special care and expert supervision. — are free of insect and disease damage — are strong, well branched, bushy stock with ample root supply — are on **OWN ROOTS** — no suckering or weakness resulting from grafting.

THESE PLANTS can be used for landscape or sales to home owners. Can be planted in 3 ft. rows, 2 ft. apart assuring a nice supply of saleable Rhododendron Named Hybrids.
